

# Technology Meeting Minutes

February 10, 2016

## Attendees

---

Holly Malek & Penny Bearden

## Agenda

---

### New Business

Discussion of Pacing guides from first Semester and progression of implementation

### Old Business

- Individual Teacher progress and 2nd Semester plans

## Old Business

---

- Personal progress by teachers was discussed.
- Individual teachers discussed plans for pre and post testing and how getting scores and data into Illuminate program is progressing

## New Business

---

- Discussed individual curriculums and how pacing guides were working and adjustments being planned for next year.
- Mrs. Malek is working through her new pacing guides and new text books all throughout this year. She has discovered some adjustments that she will make next year with her Advance Business course and how she can split up some of the business math components to better suite her students and their needs.
- Mrs. Bearden reported having to make some adjustments to the 7<sup>th</sup> grade guide this year due to assisting other core classes and helping students gain basic skills in Math and in Language Arts. 8<sup>th</sup> Grade is on target so far and should be able to stay on course for completing the Pacing Guide as initially submitted. Flexibility with 7<sup>th</sup> grade was already expected, and often by second semester gains can be made to the technology curriculum once some of the academic needs have been met during the first semester.
- Neither Mrs. Malek nor Mrs. Bearden have had any parent feedback or questions concerning their Pacing Guides.

## **Next Meeting**

---

March 9, 2016 at 2:00 p.m.

---

## **Adjournment**

---

Adjourned at 3:15 p.m.
